New: Writing retreat

Offer from SchreibCenter for PhD Students at TU Darmstadt

What's behind this?

Finding time for writing as well as peace and quiet is one of the biggest challenges PhD students face. In our SchreibCamp, you can focus on your thesis in a supportive environment without distractions. Two writing consultants who are also PostDocs will be there to provide guidance and individual writing consultations (in English or German) if and when you need them.

When and how?

We will begin the writing retreat together at 10 a.m. on the first day. Afterwards, you can individually arrange your writing time: You can work on your texts on your own, consult one of our writing tutors (in English or German) and/or take part in short workshops. On the third day, we will have a joint debriefing at around 11 a.m. where you set objectives for further work on your thesis. Each day you are free to join us on walks and use these to reflect, discuss, ask questions or to take a break.

General information

Date: Friday, 1st May 2020 (national holiday!) to Sunday, 3rd May 2020
